

# Impact SCS IB48X

48 Button DSS/BLF Console

IMPACT SCS IB48X

## Benefits Beyond Compare

The 48-button console puts afterburners on your office communications with one-look, one-touch call completion. Four function levels give you 192 possible feature activations or speed dials in addition to tri-color status LEDs. Our IB48X delivers:

- Simplified call screening and transfer
- Call status at-a-glance for greater call control
- Single button intercom to allow quick calling

## Optimal Applications

- Receptionists
- System Attendants
- Executive Secretaries

**COMDIAL®**  
The Rising Star

## Compatibility

The console provides Direct Station Selection (DSS), Intercom, Line Appearances, Feature Keys, and associate Busy Lamp Field (BLF).

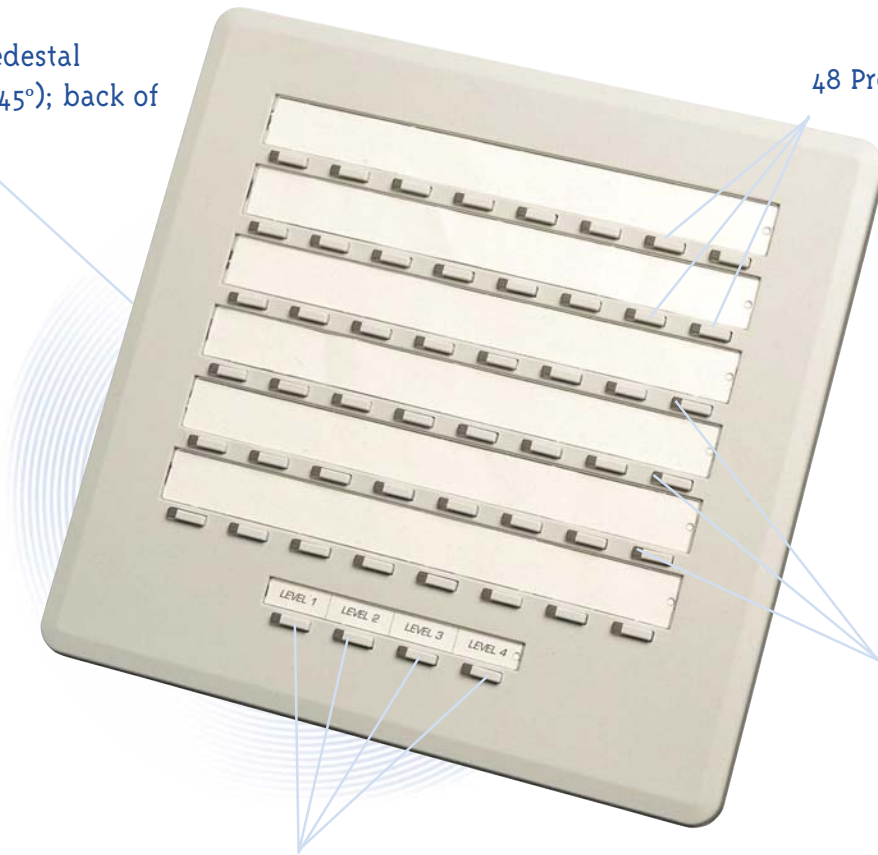

The IB48X is designed to work with these IMPACT SCS telephones:

- 8412F
- 8412S
- 8324F
- 8324S
- 8312S
- 8212S
- 8212N
- 8201N

The console requires one station port unless run in bridged console mode. Bridged console mode not operational with 8412 models.

Adjustable Pedestal  
(15°, 25°, 35°, 45°); back of  
phone
